ABOUT

I'm an Informatics student at Gunadarma University with hands-on experience across UI/UX design, graphic design, and web development. I enjoy working at the intersection of design and code — crafting interfaces that look great and work well, from initial wireframes in Figma through to production-ready front-end implementation.

EDUCATION

Bachelor of Informatics · Gunadarma University 2022 – Present
GPA: 3.71 / 4.00 · Relevant courses: UI/UX Design, Graphic Design, Data Structures, AI, Databases, Web Programming

WORK EXPERIENCE

UI Designer — Career Apprentice · Harisenin.com 2025 · 3 months

- Completed an intensive UI design program focused on interface design, design systems, and Figma prototyping.

Web Developer & UI/UX Designer (Freelance) · Project-Based 2022 – Present

- Built responsive web apps using HTML, CSS, JavaScript, React.js, and Next.js with REST API integration.
- Designed UI/UX end-to-end in Figma — research, wireframes, prototypes, and design systems — then implemented them directly into code.
- Delivered branding, graphic, and front-end projects for global clients via Fiverr & Sribufreelance.

Vice Lead of Graphic Design · HARAKARSA 2025 – Jan 2026

- Led visual branding strategy across digital and event media; reviewed team outputs for quality and consistency.

Computer Lab Assistant · VM Lepkom Gunadarma 2024 – Present

- Guided students through web development and programming lab sessions; contributed to developing web projects within the lab.

YouTube Content Creator · Design & Editing Tutorials 2023 – Nov 2025

- Produced educational content on design tools and creative workflows; edited videos and optimized thumbnails to grow audience engagement.

Graphic Designer & Web Developer · OpenSea Company 2020 – Apr 2021

- Designed brand assets for NFT projects and built responsive landing pages in HTML, CSS, and JavaScript.

PROJECTS

SiaGas — PKM-KC — IoT & AI Gas Leak Detection System · PIMNAS 2025 Finalist

- Designed full UI/UX (flows, wireframes, hi-fi prototypes) for mobile app and web dashboard; produced branding and pitch assets for the national final.

AI Business App for UMKM — International Business Plan Pitch · Top 3 & Best Presentation

- Led end-to-end product design for an AI-powered business planning app — UX research, personas, prototypes — earning Top 3 internationally.

E-Commerce Marketplace — Personal Project · React.js, Express.js, MySQL

- Built a fullstack marketplace with product listings, cart, and authentication — React.js frontend, Express.js API, MySQL database.

CRUD Web Applications — Personal Projects · HTML/CSS/JS & React.js

- Developed multiple CRUD apps (inventory, task tracking, data management) in vanilla JS and React.js with responsive UI.

Competition UI/UX Projects — *National & Regional Design Competitions*

- Designed and prototyped web and mobile products in Figma; won 1st Place Technofair 12.0 (2025), 3rd Place Find IT UGM (2026), Top 10 INFEST & IDENTITAS (2024).
